

Is your dentist a DentaNet participating provider?

What is DentaNet?

DentaNet is a network of preferred dental providers available through Southland National Insurance Corporation. The DentaNet network was developed to promote quality, conservative dental care.

Why should I seek care from a DentaNet dentist?

Seeking care from a DentaNet dentist has several advantages – one of which is that you will save money!

How will I save money when I visit a DentaNet dentist?

DentaNet dentists have agreed to be reimbursed according to a fee schedule which is typically lower than what they normally charge. Additionally, DentaNet dentists will not “balance bill” you for the difference between the negotiated fee schedule and what they normally charge. Paying your coinsurance based on a lower negotiated fee plus the assurance that DentaNet dentists will not balance bill can potentially save you a significant amount of money!

How can my dentist join DentaNet?

If your dentist is not a DentaNet dentist, but you would like for him/her to join, please:

- 1) Contact your dentist and ask him/her to consider joining DentaNet.
- 2) Tell your dentist that a representative from Southland National will be in contact to explain the program.
- 3) Complete the information below and fax it to (205) 343-1239. Questions may be directed to Southland National at (800) 476-3010.

Fax to: (205) 343-1239

I am recommending the following dentist for participation in Southland National’s DentaNet Network:

Dentist’s Name: _____ Dentist’s Phone #: _____

Dentist’s City/State: _____

Your Name: _____

Your Phone Number: _____

Company Name: _____
